

Building a Greener Safeway

LIGHTING

- 1 High Efficiency Lighting
- 2 LED Backlit Exterior Signs
- 3 Automated Lighting Controls
- 4 LED Lighting in Refrigerated Cases
- 5 Motion Sensor Controls on LED Lighting in Frozen Food Cases

REFRIGERATION SYSTEMS

- 6 Distributed Refrigeration Systems
- 7 Focused Refrigerant Leak Repair Program
- 8 Upgraded Refrigeration System Components
- 9 Routine Refrigeration Maintenance Including Coil Cleaning

DISPLAY CASES

- 10 Energy Efficient Case Designs
- 11 Energy Efficient Case Fan Motors
- 12 High Efficiency Case Coils
- 13 High Efficiency Reach-in Doors
- 14 No Heat / No Fog Doors to Reduce Energy Consumption

HVAC SYSTEMS

- 15 High Efficiency HVAC Systems
- 16 State of the Art Energy Management Systems to Monitor and Control Energy Consumption
- 17 Programmable Thermostats for Maximum Comfort & Efficiency
- 18 Routine HVAC Maintenance & Coil Cleaning
- 19 Minimize Heating and Cooling in Unoccupied Areas
- 20 Optimize Ambient Humidity

FACILITIES

- 21 Fuel Efficient Truck Design
- 22 APU Systems to Reduce Engine Idling
- 23 Fuel Efficient Delivery Schedules and Routes
- 24 Wireless Fleet Monitoring
- 25 Energy Efficient Truck Refrigeration Systems
- 26 Use of Alternative Fuels such as Biodiesel, and Compressed Natural Gas
